

GB 38508–2020

Limits for Volatile Organic Compounds Content in Cleaning Agents

清洗剂挥发性有机化合物含量限值

Authorities: SAMR, SAC

Release Date: Mar. 04, 2020

Implementation Date : Dec. 01, 2020

National Standard of the People's Republic of China

GB 38508-2020

Limits for volatile organic compounds content in cleaning agents

Date of Issuance: 04-03-2020

Date of Implementation: 01-12-2020

Issued by:

State Administration for Market Regulation of the People's Republic of China
and

Standardization Administration of the People's Republic of China

Foreword

All technical content in this standard are mandatory.

This Standard is drafted in accordance with the rules given in GB/T 1.1-2009.

This standard was proposed and under the jurisdiction of the Ministry of Industry and Information Technology of the People's Republic of China.

Limits for volatile organic compounds content in cleaning agents

1 Scope

This standard specifies the product classification, limit requirements, test methods and packaging marks for volatile organic compounds (VOC) in cleaning agents.

This standard applies to volatile organic compound-containing cleaning agents produced and used in industrial production and operations.

This standard does not apply to cleaning agents used in such industries as aerospace, nuclear industry, military and semiconductor (including integrated circuit) manufacturing.

2 Normative Reference

The following referenced documents are indispensable for the application of this document. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.

GB/T 4472 Determination of density and relative density for chemical products

GB/T 6283 Chemical products – Determination of water – Karl·fischer method (general method)

GB/T 6680 General rules for sampling liquid chemical products

GB/T 13173–2008 Surface active agents – Detergents – Testing methods
