Foreword

This Standard is formulated to implement the “Environmental Protection Law of the People’s Republic of China”, prevent the environmental risks of chemical substances, regulate and guide the screening of priority assessment chemical substances, and provide support for screening priority control chemical substances.

This standard specifies the principles, procedures and technical requirements for screening of priority assessment chemical substances.

This standard is issued for the first time.

This standard is formulated under the organization of the Department of Solid Waste and Chemicals and the Department of Regulations and Standards of the Ministry of Ecology and Environment (MEE).

The main drafting units of this standard: Solid Waste and Chemicals Management Technology Center of the Ministry of Ecology and Environment, Nanjing Institute of Environmental Sciences of the Ministry of Ecology and Environment, and Foreign Environmental Cooperation Center of the Ministry of Ecology and Environment.

This standard was approved by the Ministry of Ecology and Environment on December 21, 2021.

This standard shall go into force from January 1, 2022.

This standard is interpreted by the Ministry of Ecology and Environment.
