Foreword

All technical contents of this standard are mandatory.

This standard was drafted in accordance with the rules given in GB/T 1.1-2009.

This standard replaces GB 10648-1999 "Feed label".

Compared with GB 10648-1999, the main technical changes are as follows:

——the application scope (see Chapter 1) of the standard was revised and improved.

——the definitions of terms such as feed, feed material and feed additive were added (see 3.2~3.15); the definition of medical feed additive was revised (see 3.18); the term and definition of "shelf life" was deleted; the "net weight" was replaced by "net content" (see 3.17), and the labeling requirement for net content was specified (see 5.7).

——add the requirement that it is forbidden to label the claim with animal disease prevention or treatment function (see 4.4).

——add the requirement that common name shall be adopted as the product name; and the expression methods and labeling requirement of general name of feed were specified (see 5.2).

——the requirement that the guaranteed analysis of product shall meet the requirements in the executed standard was added (see 5.3.1).

——The guaranteed analysis of product was divided into "guaranteed analysis of feed and feed material" and "guaranteed analysis of feed additive"; the feed additive products were divided into "trace mineral feed additive, enzyme feed additive, microbial feed additive, feed additive blender and other feed additives"; the guaranteed analysis of feed and feed material product and the guaranteed analysis of feed additive product were revised, supplemented and optimized; the requirements that the guaranteed analysis of feed material products shall be mandatory labeling items in the "Catalogue of Feed Materials" were added; the requirement that the moisture content shall not have to be indicated in label for liquid feed additive and liquid additive premix was added; the requirement that the hygienic index shall be indicated for feed additive and imported feed additive subject to enterprise standard was added (see Table 1 and Table 2).

GB 10648-2013

—the contents which shall be labeled for material composition were revised, supplemented and optimized. (see 5.4).

—the requirement for labeling the recommended dosage and precautions of feed additive, trace mineral premix and vitamin premix was added (see 5.6).

—the requirement that the production date of imported product in the Chinese label shall be consistent with that indicated in the country of origin labeling was added (see 5.8.2).

—another expression method for “shelf life”, and the requirement that the shelf life of imported product indicated in the Chinese label shall be consistent with that indicated in the country of origin labeling were added (see 5.9).

—the storage conditions and methods were separately listed as an individual article (see 5.10).

—the "Production License and Product Approval Number" was replaced by the "Official Approval Document Number" (see 5.11).

—the special labeling requirements for animal-derived feed (see 5.13.1), entrusted processed product (see 5.13.3), customized product (see 5.13.4), imported product (see 5.13.5) and genetically modified product (see 5.13.6) were added.

—the requirement that the label must not be covered and all contents in the label shall be visible without unpacking were added (see 6.2).

—the measurement units for the guaranteed analysis for enzyme feed additive and microbial feed additive were added in Annex A.

This standard is under the jurisdiction of the National Technical Committee on Feed Industry of Standardization Administration of China (SAC/T 76).

The drafting units of this standard are as follows: China Feed Industry Association and Secretariat of the National Technical Committee on Feed Industry of Standardization Administration of China.

The main drafters of this standard are as follows: Wang Liwen, Sha Yusheng, Li Shenglan, Wu Yubo, Yang Qingfeng, Li Xiangming and Yan Jiangang.

The previous editions of standards replaced by this standard are as follows:

—GB 10648-1988, GB 10648-1993 and GB 10648-1999.
