Foreword

This standard replaces content of older infant formula applicable for 6-12 months old infants in GB 10767-2010 *National Food Safety Standard Older Infants and Young Children Formula*.

Compared to content of older infant formula applicable for 6-12 months old infants in GB 10767-2010, the major changes are as follow:

- Application scope is revised.
- Terms and definitions are revised.
- The ratio of whey protein and lactose is added.
- The minimum and maximum limits for most nutrients are revised and added
- The content requirements of protein, iron, zinc, phosphorus in bean-based older infant formula are added.
- Manganese, selenium, choline are changed from optional substances to essential substances.
- Some of the labeling requirements are revised.
- Test methods are revised.
