General Standard for Blended Food Additives

1 Scope

This standard applies to all blended food additives with the exception of food flavorings and chewing gum bases.

2 Terms and definitions

2.1 Blended food additives

Refer to food additives made from two or more single food additives, with or without adjuvant added, well-mixed by physical process so as to improve food quality and facilitate food processing.

2.2 Adjuvants

Refer to food raw materials which are added to blended food additives in order to achieve the goals such as processing, storage and dissolution of blended food additives.

3 Naming principles

3.1 The blended food additive consisting of single-functional food additives of the same function shall be named in accordance with the final function that such food additive can be exerted in the final food. That is, in the form of “blended” + “the
