General Rules of Infant Formula for Special Medical Use

1 Scope

This standard applies to infant formula for special medical use.

2 Normative References

The documents referenced in this Standard are essential for the application of this standard. For dated reference documents, only the versions with the specific dates apply. For undated references, the latest versions (including all the revision lists) apply.

3 Terms and definitions

3.1 Infants

Refer to the humans at the age of 0 month to 12 months.

3.2 Infant formula for Special Medical Use

Refer to the powder or liquid formula food which is designed to meet nutritional needs of infants in special medical conditions such as a particular disorder, disease or medical conditions. Under the guidance of a doctor or a clinical nutritionist, the energy and nutrients will be able to meet the needs of the growth and development for 0 to 6 month old infants in special medical conditions while eating alone or in combination with other foods.
