Introduction

This standard replaces GB/T 12396-1990 Determination Method of Iron, Magnesium and Manganese in Foods.

In comparison with GB/T 12396-1990, the major changes of this standard are as follows:

- The Chinese name of the standard has been modified into Determination of Iron, Magnesium and Manganese in Food;
- The structure of the original standard has been modified in accordance with GB/T 20001.4-2001 Standard Writing Rules Part 4: Methods for Chemical Analysis.

This standard is proposed and centralized by Ministry of Health of People's Republic of China.

This standard is drafted by Institute for Nutrition and Food Safety of Chinese Center for Disease Control and Prevention.

This standard is primarily drafted by Xinghan Zhou, Jianhua Men and Guangya Wang.

This standard was firstly issued in 1990; this is the first amendment.
