

General Rules for Food Production License Inspection

Chapter I General Rules

Article 1 The “Rules” is formulated to enhance the management of food production license, normalize the inspection of food production license in accordance with “Food Safety Law of the People’s Republic of China” and its implementing rules, and “Administrative Measures for Food Production License” as well as other relevant laws and regulations, provisions and national food safety standards.

Article 2 This “Rules” applies to the inspection on production license and license change, license renewal of food and food additives (hereinafter referred to as “food”) of applicant organized by food and drug administrative departments.

Inspection of food production license includes inspection of application materials and field inspection.

Article 3 This “Rules” shall be applied in combination with corresponding “Detailed Rules for Food Production License Inspection” (hereinafter referred to as “Detailed Rules for Inspection”). Where the inspection of production license is carried out by applying “Detailed Rules for Inspection of Local Specialty Food Production License”, it shall comply with the provisions of Article 8 in “Administrative Measures for Food Production License”.

Article 4 For the inspection of application materials, the integrity, standardization, and compliance of written application materials shall be taken as the main inspection contents. For field inspection, the consistency and compliance of application materials with actual state shall be taken as the main inspection contents.

Article 5 Where the inspection of food production license is especially specified by laws and regulations, rules and standards, the provisions thereof shall be complied with as well.
